

LAMAR UNIVERSITY  
INFORMATION TECHNOLOGY POLICIES

SECTION: Information Technology  
AREA: Server Management

Number: 10.01.10

## I. PURPOSE

Servers are an essential type of information resource. An information system can be comprised of one or more servers acting as an information resource. Hence servers are utilized to deliver critical components of instruction, research, faculty development, student services and administration in pursuit of the Lamar University mission.

The purpose of this policy is to define a management framework that delineates the roles and responsibilities for the management of all servers, as well as to describe critical roles and responsibilities for server owner and server administrator. This policy also addresses specific requirements from TSUS rules and regulations regarding server management.

This policy is not intended to cover all of the mand

**VI. ENFORCEMENT**
